

Our highly experienced sales and application team assists our clients in taking a project from an early design concept all the way through delivery and start-up. We take the most complex projects and execute them on time and with close coordination to your job schedule. We partner with top-tier companies in their respective markets to ensure that any project we are involved in will be guaranteed by the best equipment in the industry.

### DAIKIN

High-efficiency, variable refrigerant volume heat pumps and Heat Recovery Systems, air-cooled and water-cooled chillers, central station air handlers, applied rooftop units, vertical self-contained units, fan coils, unit ventilators, water source heat pumps, templiers, and heating and cooling coils.

### ABB

Variable frequency drives designed for heating, ventilation and air conditioning applications.

### AAF | Flanders

Air Cleaning and High Filtration Products

### DADANCO

Breathing Life Into Your Building

Active chilled beams, induction diffusers, and induction unit consoles.

### ICESTOR™

Thermal Energy Storage

An innovation green product designed to lower energy costs and provide superior cooling.

### JOHNSON

AIR-ROTATION® HVAC SYSTEMS

Air-Rotation HVAC Systems with a wide variety of options and ability to heat, cool, circulate, dehumidify air or add humidity with incredible energy

### OXYGEN 8

Indoor DOAS with VRV Integration

### REYMSA

The combination of our unique patented one piece casing and the use of the most advanced technology make our towers some of the best available on the market.

### SEMCO

A Filakt Woods Company

An array of direct-drive plenum fans with integral electronically commutated (EC) motors

### Systecon Inc.

Packaged pumping systems, controls, and packaged central energy plants.

### ABOVEAIR TECHNOLOGIES

Outside air equipment design, and innovative indoor HVAC product solutions.

### ENVIRO-TEC®

BY JOHNSON CONTROLS

Manufacturer of single, dual duct and fan-powered VAV boxes, fan coil units and air handling units.

### INDEECO

Heating elements, fabricates sheet metal, builds electronic controls, and welds ASMI pressure vessels.

### KLIMAK

Air Handling at its best

Custom Air Handlers

### PlasmaAir

A WellAir Brand

Air Purification Technology

### SCHOOL AIR

Classroom Units for healthy and comfortable learning environments

### seresco

Advanced Dehumidifier WebSentry © Technology

### UVDI

UltraViolet Devices, Inc.

Ultraviolet technology for air purification and disinfection.

### COMPU-AIRE INC.

Specialized Environmental Air Conditioning Systems

Specialty air conditioners for critical electronic system facilities that have sensitive temperature and humidity needs.

### HASTINGS

Commercial + Industrial Heating, Ventilating & Air-Handling Unit Manufacturer

### incenia

H.V.A.C. INNOVATION & TECHNOLOGIES

Custom air handling units with no through metal and knock down construction designs.

### MARCRRAFT

Custom HVAC systems

### QPAC

An array of direct-drive plenum fans with integral electronically commutated (EC) motors, offering superior energy efficiency and flexible, low-footprint application.

### SEASONS 4

Custom packaged DX and chilled water air handling units.

### SwifterFans

Perform Better. Achieve More.

High Velocity Low Speed (HVLS) Fans
